About Austin Health

Austin Health is one of Victoria's largest health care providers. Comprising the Austin Hospital, Royal Talbot Rehabilitation, Hospital in the Home and community based health services; Austin Health is an internationally recognised leader in clinical teaching, training and research, with numerous university and research institute affiliations.

Austin Health employs near 9,000 staff across its sites; including over 1,600 doctors and 3,000 nurses, and delivers a full range of leading edge clinical services, including several state-wide services (liver transplant, spinal cord injury service, respiratory support service, child inpatient mental health service). In total, Austin Health provides over 900 beds, including mental health, aged-care and rehabilitation beds and a range of community and in the home services. The current annual operating budget is in excess of \$960 million.

Austin Health delivers vital state-wide services to all Victorians, including to diverse multicultural and veteran communities. It also provides community and specialty services to the people of Melbourne's north-eastern corridor in a safety-focused, team-oriented and stimulating work environment.

Austin Health's current vision is to change healthcare for the better through world class research, education and exceptional patient care.

Our values define who we are, shape our culture and the behaviours, practices and mindset of our people. Our values are: Our actions show we care, we bring our best, together we achieve and we shape the future. www.austin.org.au/about-us

Austin Health is committed to providing an inclusive culture where all employees can contribute to the best of their ability and strive to develop further. Find more at <http://www.austin.org.au>

Position Purpose

- To provide timely and caring medical expertise in Radiation Oncology field to patients suffering from cancers and benign conditions
- To demonstrate research interest in Radiation Oncology field
- To provide timely responses to multiple clients including referring doctors and other units within the hospital

About Radiation Oncology

Austin Health Radiation Oncology at the Olivia Newton-John Cancer Wellness & Research Centre (ONJ Centre) is committed to providing a service that embraces new technology, new techniques and new ways of treating each patient so that the best outcome can be achieved. The ONJ Centre and the Ballarat Austin Radiation Oncology Centre (BAROC) partner to provide radiotherapy services across the north eastern Melbourne and Grampians regions with a holistic approach to cancer and supportive care. Austin Health also provide remote consultations and a superficial skin treatment service at the newly opened Stawell Austin Radiation Oncology Service (SAROS).

The ONJ Centre has state of the art equipment and facilities including Siemens CT Simulator with Vision RT 4DCT, 3 Elekta Linacs, 6 DOF couches, ABC breath hold, Body Fix stabilisation and Brainlab Exactrac imaging. Mosaic is used for the record and verify medical record and programs such as MIM Maestro and Mobius FX & 3D support our work. The brachytherapy service is supported by a Flexitron HDR treatment unit and Oncentra planning with MRI simulation and a new WoMED superficial machine has been installed.

We're a team of technologically driven health professionals. We deliver the best care available; efficiently and focused on the needs of each individual patient. Our team constantly working with our colleagues, researchers and consumers to improve patient outcomes through evidence based processes and the early adoption of new and innovative technologies. Demonstrating this is the current project underway to commission an Elekta Unity MR Linac and 1.5T Philips Ingenia Ambition MRI supporting a full MRI workflow for radiotherapy patients.
